setting up
your giving
here:**

Everything that happens at FBC Jenks is made possible through our people truly being the church by owning who we are and what we do. On October 26, during all three services, we will come together to vote on this year's ministry plan. Part of that vote will be to approve the 2026 budget, but we will also vote on several lead teams (finance, personnel, etc.) that help bring ministry to life here. To prepare for that day we invite you to read through the plan, pray over it, and ask God how He is calling you to play a unique role in bringing it to life! We will host Budget Question and Answer times on Oct. 8 and 22 from 530-615pm to help prepare for that day.

proposed budget

Beyond FBC Jenks - \$536,027

When you give to FBC Jenks, your generosity doesn't stay within our walls—it reaches far beyond. That impact looks like:

- over \$75,000 in direct missionary support
- over \$50,000 in direct ministry partnerships
- over \$350,000 sent to Oklahoma Baptist cooperative funds
- NEW this year is \$50,000 designated to help other churches directly in Oklahoma

Weekly Ministry Costs - \$2,904,901

Over 110 years ago FBC Jenks was planted to be a gospel driven church in the Jenks Community. The majority of what you give still goes to the work happening right here in Jenks. This includes things like students, kids, preschoolers, worship, groups, and staff to help shepherd, lead, and support all that work..

Maintaining - \$673,400

We hold a high value in stewarding what we have and part of that means maintaining our property. This includes everything from lawn maintenance to utilities. This portion of our budget goes directly back into maintaining a place where every week we see people gather to worship, pray together, and grow spiritually.

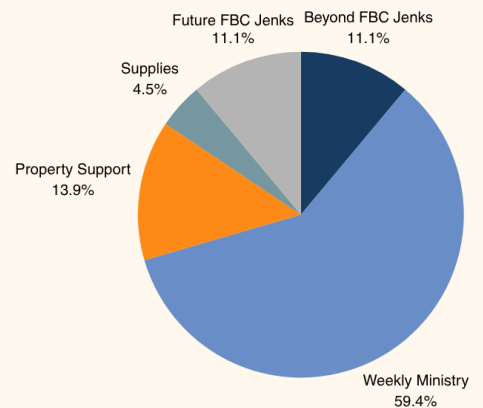

Supplies - \$219,200

The fourth portion of our budget covers all the materials needed to support our church. From printing supplies, to postage, to cleaning, kitchen, and more. This part of the budget provides the needed finances to make sure our ministry efforts have the things we all need.

Future FBC Jenks - \$535,450

We believe God is moving in this church and through the ministry we see week in and week out. We know this means we must work to prepare for the future. This section is putting budgeted dollars aside for growth expenses into two areas. The first is savings and the second is going directly to building and property updates.

ministry investment plan

Total - \$4,868,978

In previous years, our budget has included a cushion based on the prior year's tithes and offerings. However, this year we have chosen to add the "Future FBC Jenks" to better reflect where every dollar goes, giving us more opportunity for more ministry both here and around the world. As a result, our proposed budget reflects a significant increase—based entirely on this year's giving trends. Using our average weekly giving through the end of July 2025 (\$93,634), we used that weekly number to build out this budget which reflects a total need of \$4,868,978 for the year.
